# Material Safety Data Sheet

TCT通测检测 TESTING CENTRE TECHNOLOGY

Name of Sample	Polymer lithium ion battery		
Manufacturer's name	Shenzhen Sanqixin Electronics (	Co., LTD	
Manufacturer's Address	803-804, building 2, Shanghengl Dalang Street, Longhua district,		ongsheng community,
Contact Person	Mr. He		
Tel	+86-755-85203653		
Emergency Tel	+86-755-85203653	(S)	Q
E-mail	339502316@qq.com		
Classification of Danger	See section 14.		
Primary Route(s) of Exposure	Eye, skin contact, ingestion.		
	The batteries are not hazardous w manufacturer under normal conditi fire, heat, leakage of internal comp	ions. In case of abuse, the oonents, which could cause	re's Hazard of rupture, casualty loss. Abuses
Health Hazard	including but not limited to the follo circuited, put into fire, whacked wit crushed, and broken.		
Health Hazard	circuited, put into fire, whacked wit		

#### Material Safety Data Sheet

Chemical Name	Concentration or concentration ranges (%)	CAS Number
Lithium Cobalt Oxide	15-40	12190-79-3
Graphite	10-30	7782-42-5
Phosphate(1-), hexafluoro-, lithium	10-30	21324-40-3
Copper	7-13	7440-50-8
Aluminum foil	5-10	7429-90-5
Nickel	1-5	7440-02-0

Note: CAS number is Chemical Abstract Service Registry Number.

N/A=Not apply.

### Section 4- First Aid Measures

Eye	Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.
Skin	Remove contaminated clothes and rinse skin with plenty of water or shower for 15 minutes. Get medical aid.
Inhalation	Remove from exposure and move to fresh air immediately. Use oxygen if available.
Ingestion	Ingesting damaged batteries, do not induce vomiting or give food or drink. Seek medical attention immediately.

## Section 5- Fire Fighting Measures

Characteristics of Hazard	Dusts at sufficient concentratio generates toxic fumes.	ns can form explosive mix	tures with air. Combustion
Hazardous Combustion Products	Carbon dioxide.		

Report No.: TCT221208M193

This report shall not be reproduced except in full, without the written approval of Shenzhen TCT Testing Technology Co., Ltd.

Fire-extinguishing Methods and Extinguishing	For small fires, use water	spray, dry chemical, carbon dioxide or chemical foam.
Media Attention in	Wear self-contained breat	hing apparatus in pressure-demand, MSHA/NIOSH
Fire-extinguishing	(approved or equivalent) a	
Section 6- Accide	ental Release Measu	ures
Personal Precautior equipment, and eme	os, protective ergency procedures	In case of rupture. Attention! Corrosive material. Avoid contact with skin, eyes and clothing. Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Refer to protective measures listed in Sections 7 and 8.
Environmental Prec	autions	Prevent product from contaminating soil and from entering sewers or waterways.
Methods and materi	als for Containment	Stop the leak if safe to do so. Contain the spilled liqu with dry sand or earth. Clean up spills immediately.
Methods and materi	als for cleaning up	Absorb spilled material with an inert absorbent (dry sand or earth). Scoop contaminated absorbent into a acceptable waste container. Collect all contaminate absorbent and dispose of according to directions in Section 13. Scrub the area with detergent and water collect all contaminated wash water for proper
	G) (	disposal.
Section 7- Handli	ng and Storage	
Handling		The battery may explode or cause burns, if disassembled, crushed or exposed to fire or high temperatures. Do not short or install with incorrect polarity.
Storage		Store in a cool, dry, well-ventilated area away from incompatible substances. Store locked up. Keep ou of the reach of children.
Other Precautions		In case of rupture. Handle in accordance with good industrial hygiene and safety practice. Avoid contac with skin, eyes or clothing. Use personal protection equipment.

Section 8 - Exposure Controls/Persona	I Protection
Engineering Controls	Use adequate ventilation to keep airborne concentrations low. If used under conditions that generate particulates, the ACGIH TLV-TWA of 3mg/m <sup>3</sup> respirable fraction (10mg/m <sup>3</sup> total) should be observed.
	Eye and Face Protection: None required for consumer use. If there is a Hazard of contact: Tight sealing safety goggles. Face protection shield.
Personal Protective Equipment	Skin and Body Protection: None required for consumer use. If there is a Hazard of contact: Wear protective gloves and protective clothing.
	Respiratory Protection: No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

### Section 9- Physical and Chemical Properties

	Appearance: Prismatic	
Physical State	Color: Silver	
$(\mathcal{G})$	Odour: If leaking, smells of medical ether.	$\langle \mathcal{G} \rangle$

### Change in condition

TCT通测检测 TESTING CENTRE TECHNOLOGY

рН	Not applicable as supplied.
Flash Point	Not applicable unless individual components exposed.
Flammability	Not applicable unless individual components exposed.
Relative density:	Not applicable unless individual components exposed.
Solubility (water)	Not applicable unless individual components exposed.
Solubility (other)	Not applicable unless individual components exposed.

Section 10 – Stability and Reactivity	
Chemical Stability	Stable under recommended storage conditions.
Possibility of Hazardous Reactions	None under normal processing.
Conditions to Avoid	Exposure to air or moisture over prolonged periods.
Report No.: TCT221208M193 Hotline: 400-6611-140 Tel: 86-755-27673339	Page 5 of 8 Fax: 86-755-27673332 http://www.tct-lab.com

Incompatible materials		Acids, Oxidizing agents, Bas	es.
Hazardous Decomposition	Products	Carbon oxides.
